SALES ACCELERATION & REVENUE GROWTH PROGRAM

PREPARED FOR THE EXECUTIVE COMMITTEE OF HALCYON RETAIL GROUP

Six-week diagnostic completed · Program proposal for decision · July 2026

AGENDA

Introduction

WHO WE ARE

- **Boutique sales consultancy** — 140 practitioners across 6 offices, focused exclusively on **B2B revenue organizations**
- **21 years** building pipeline engines for retail, manufacturing and distribution clients
- **Operator-led teams** — every engagement lead has carried a quota and run a sales floor
- **Measured on outcomes**: 87% of fees in our last fiscal year were tied to delivered results

One thesis: disciplined process beats heroic selling.

OUR PROMISE

WE TURN PIPELINE INTO PREDICTABLE REVENUE.

$12.4M

of incremental annual revenue targeted for Halcyon within 24 months

The best sales organizations do not sell harder — **they remove every reason a deal has to stall.**

WHAT YOU TOLD US

Client needs — six-week diagnostic, 34 interviews across sales, marketing and finance

- **Growth has stalled** — revenue flat for three consecutive quarters
  - Win rate on new logos fell from **31% to 22%** year over year
  - Average deal cycle stretched by **19 days**
- **Pipeline is opaque** — forecasts miss by ±25% at month-end
  - No single source of truth across **4 regional CRM instances**
- **Teams are busy, not productive** — reps spend 62% of time on non-selling work
- **You want a partner** who builds capability, not dependency

34

stakeholder interviews in six weeks

Every finding in this deck traces back to your own people, your own data, your own deals.

THE CHALLENGES ON THE TABLE

PIPELINE & PROCESS

- **Lead qualification is tribal** — 8 layers of handoffs between marketing and the floor
- **Discounting is unmanaged**: 14.4% average give-away vs. 9–11% peer range
- Decision cycles run **3× slower** than best-in-class competitors

PEOPLE & DATA

- **Span of control 1 : 4.2** against a 1 : 8 benchmark — managers administrate, they don't coach
- **CRM data trust is broken** — reps keep shadow spreadsheets, forecasts are negotiated
- **Enablement is event-based**: one annual kickoff, no reinforcement loop
