GLASS

Shareholder Overview — Connected Eyewear Platform

Early sales, product roadmap, and the path to scale · FY2026

Today's Agenda

01

Why connected eyewear, why now

02

AetherLink One — product & platform

03

Early sales traction & unit economics

04

Scenarios, customers & social proof

05

Business model & revenue plan

06

Roadmap, team & the ask

OUR VISION

Information should meet your eyes — **not steal your attention.**

AetherLink Glass puts navigation, translation, capture and communication into a featherweight frame people actually wear all day.

THE PROBLEM

Screens Own Our Attention

- **7+ hours** of daily screen time — eyes down, world missed
- **Phones interrupt flow**: 96 pickups per day on average
- **Navigation, translation and capture** all demand a free hand and a fast glance
- **Existing headsets are too heavy, too odd, too expensive** for daily wear

THE PRODUCT

Meet AetherLink One

- **38 g** — lighter than most sunglasses
- **Binocular micro-LED waveguides**, 2,000 nits, daylight readable
- **All-day battery** with 15-minute fast top-up
- **On-device AI** for translation, capture and glanceable navigation

\$499 LAUNCH

IP54

RX READY

Three Things It Does Brilliantly

GLANCE

Navigation & alerts float at the edge of vision
— arrivals, turns, gates, without breaking stride.

UNDERSTAND

Live translation and captions rendered in-frame, on-device, in 27 languages.

REMEMBER

First-person capture and instant recall: 'what was that restaurant from March?'

One frame, one AI companion — **three superpowers you use every hour.**

EXPERIENCE

From Box to First Glance in Minutes

Mediated by AetherOS — our glance-first operating layer that decides what deserves your attention, and what never interrupts.

A Category Crossing Into the Mainstream

\$34B

global smart-eyewear TAM by 2030, 24% CAGR

142M

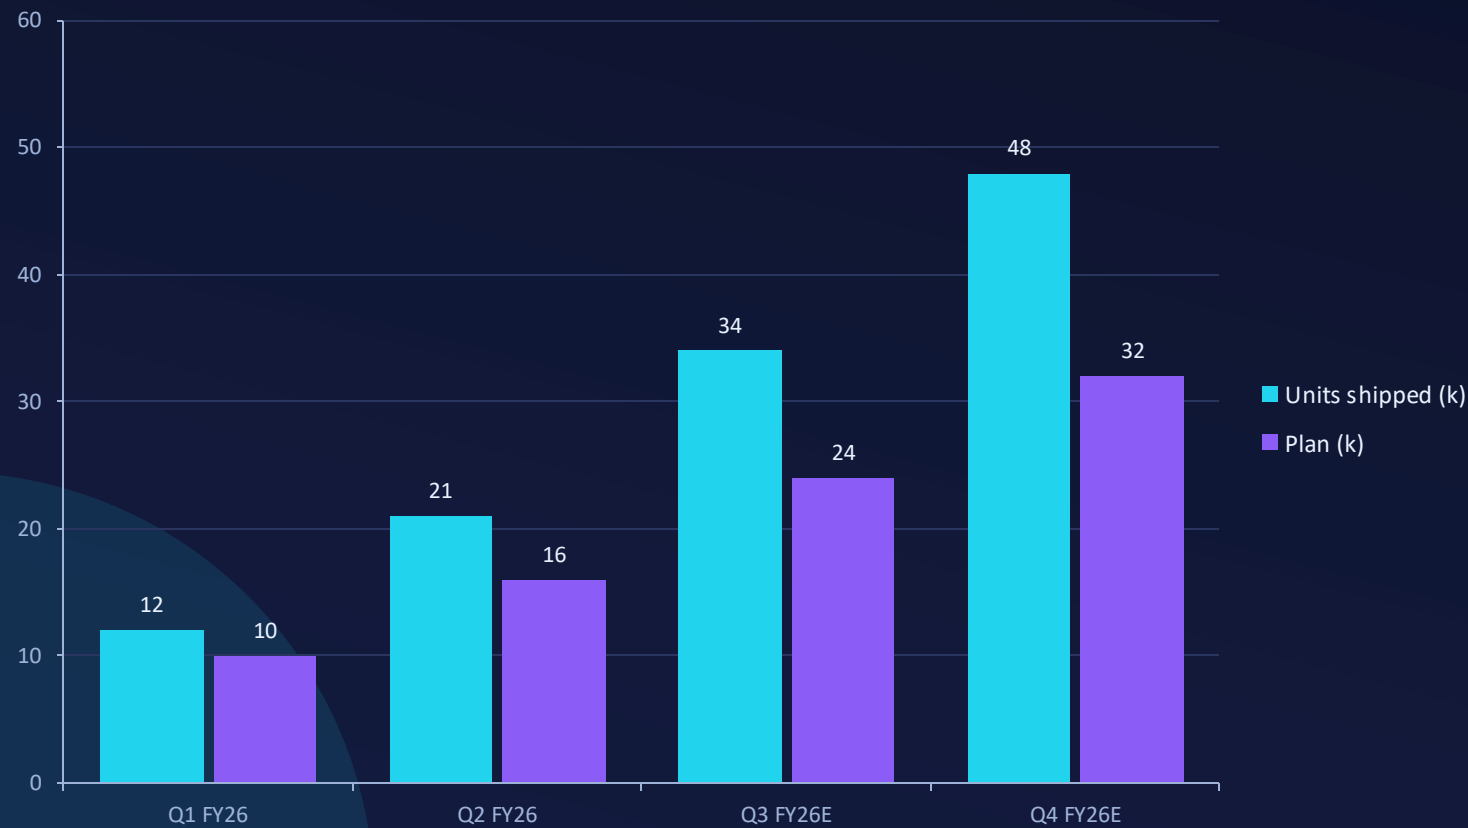

units shipped annually by 2030 (industry consensus)

68%

of early adopters cite navigation & translation as killer apps

Our wedge: style-first frames at a mainstream price — the segment competitors abandoned chasing enterprise.

First Two Quarters Beat the Plan

115k

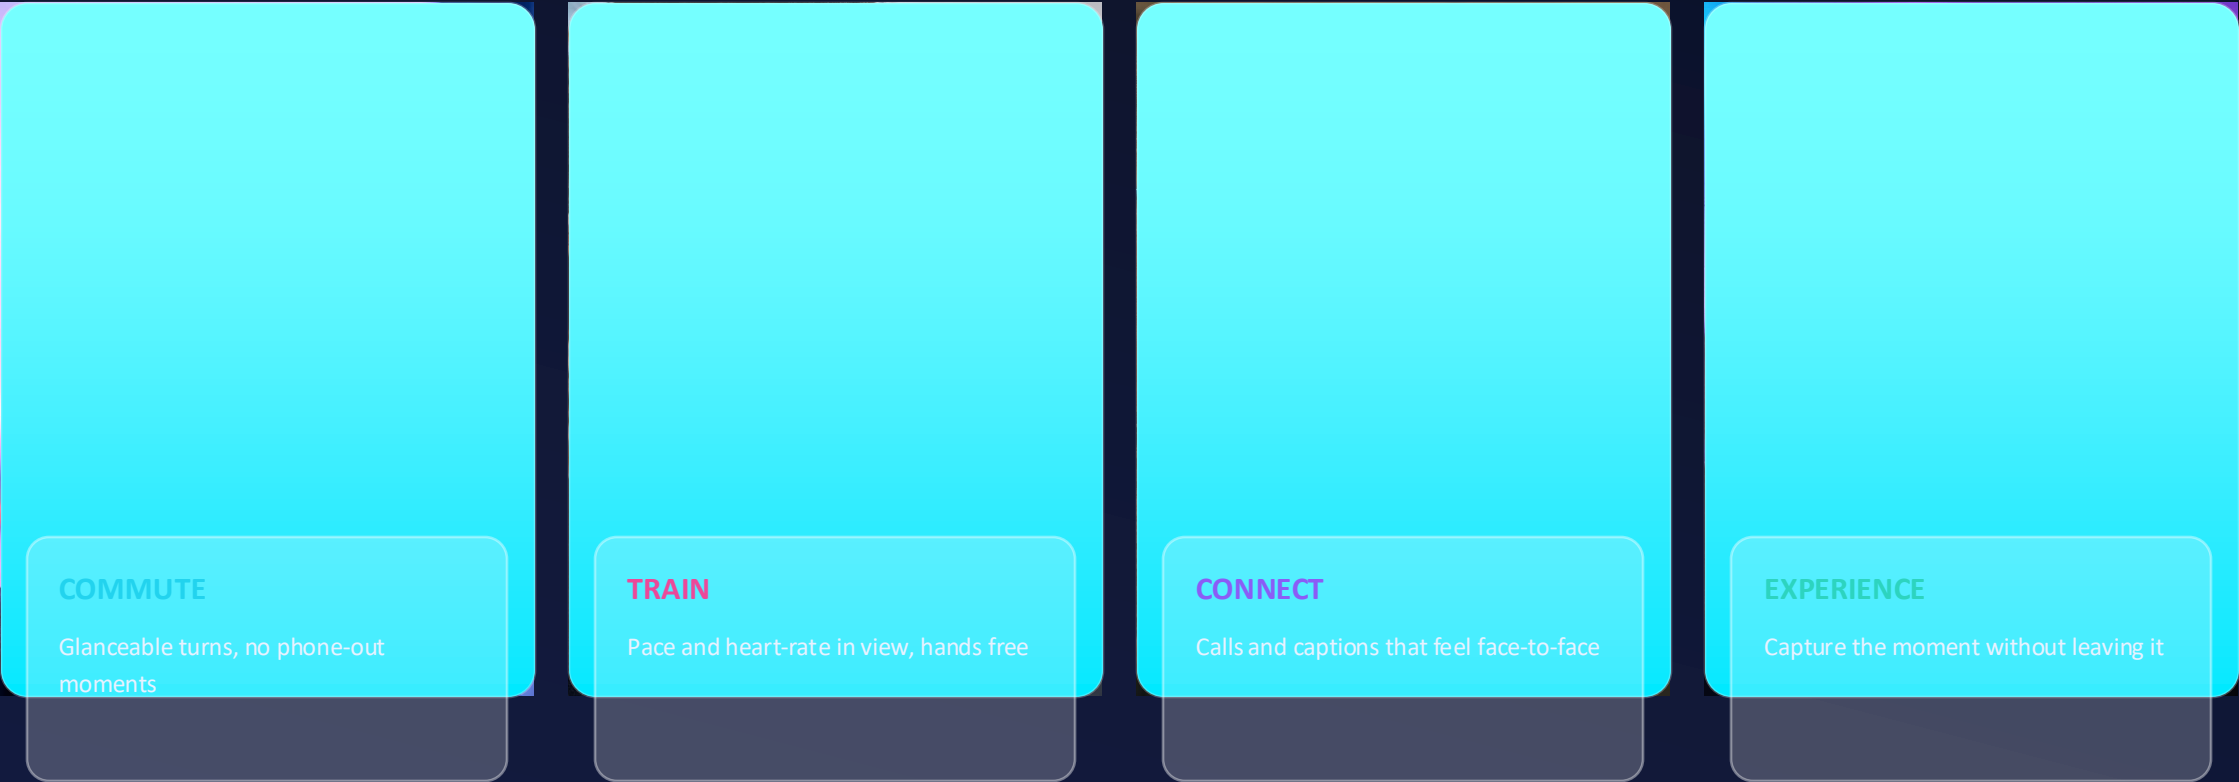

units in FY2026 plan — 3.9× our first-year forecast set at seed

41%

of Q2 orders came from referrals and creator waitlists — zero paid acquisition

IN THE WILD

One Frame, Four Everyday Lives

“

I stopped taking my phone out on walks. Directions, messages, photos — it all just floats there when I need it, and disappears when I don't.

MARA J. — BETA PILOT #0417, LISBON

Waitlist NPS 71 · 4.8/5 comfort rating after 30 days

Hardware Margin + Companion Services

AETHERLINK ONE

\$499

Hardware, 38% blended gross margin at current volume

AETHER+

\$9/mo

Cloud recall, advanced translation packs, priority AI — 31% attach

AETHER CARE

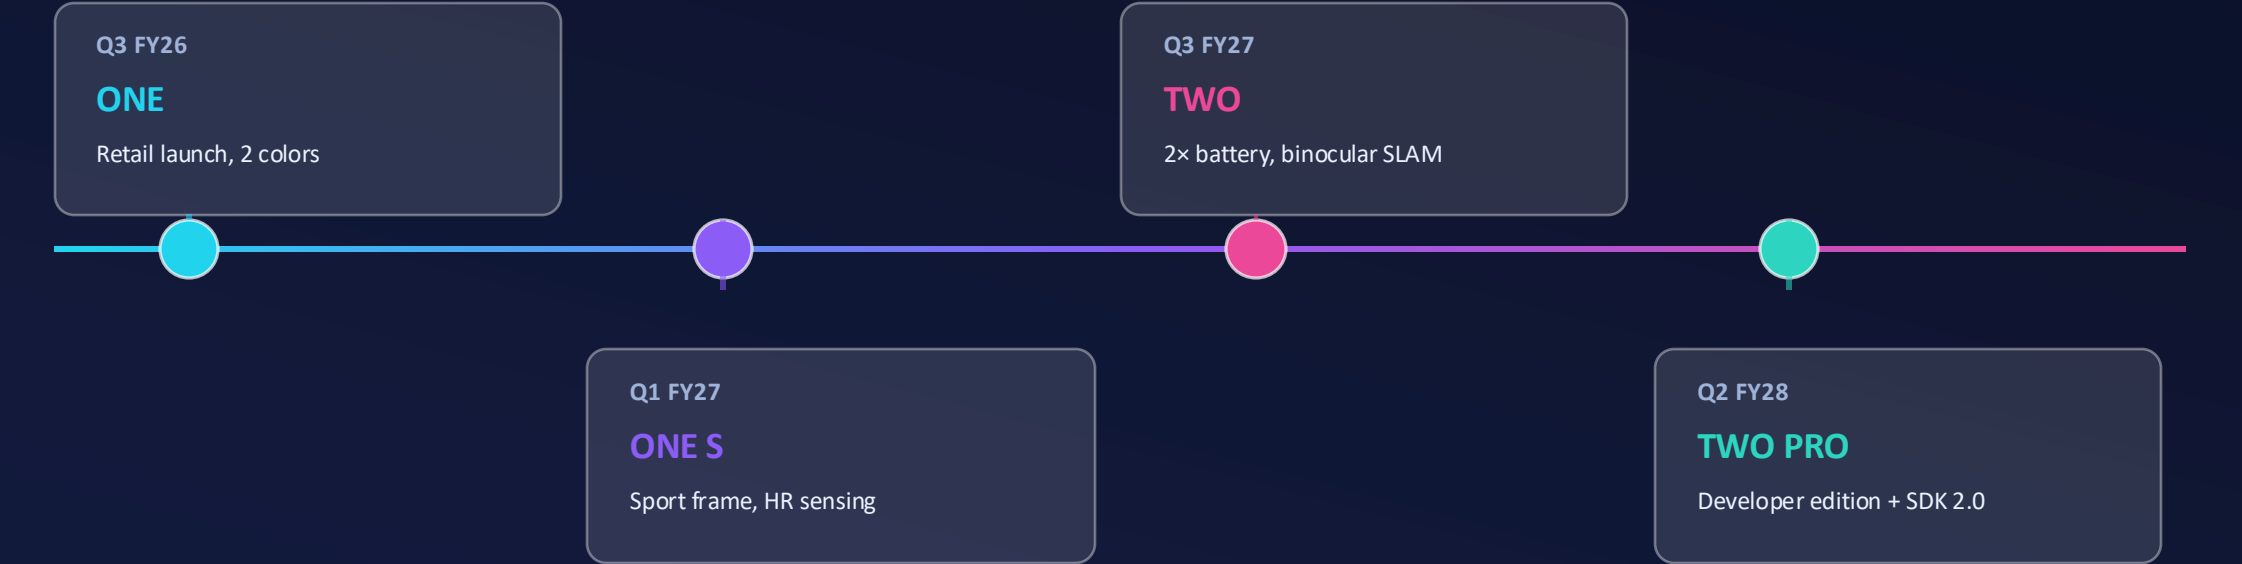

\$79/yr

Accidental-damage cover & lens refresh — 44% attach

Blended FY2027 revenue target: **\$86M** — 71% hardware, 29% recurring services.

ROADMAP

Eight Quarters, Three Generations

SDK ships with every generation — **1,900 developers** already building glance-apps.

TEAM

Built by People Who Ship Optics

- **CEO** — **ex-wearables lead**, shipped 4 optical consumer products
- **CTO** — **computational-imaging PhD**, 31 patents in waveguide display
- **VP Design** — **award-winning frame studio**, fashion-first industrial design
- **68 people** across optics, AI, retail and supply chain
